1/ - "All Other Lands" includes Land Cover/Use categories of Conservation Reserve Program Land and Other Rural Lands.

2/ - "Other" includes the Land Cover/Use categories for which capability class is not determined. These are Federal Land, Water, Rural Transportation, and Urban Lands.

3/ - Error not shown because category contains Federal Land and Large Water Land Cover/Use types which have standard error estimates that are not comparable to other data due to computational differences.

NOTE: Data may not add to totals because of rounding. The error referred to in the table is the standard error of the estimate. You can obtain the margin of error at the 95% confidence limit by multiplying the error by 1.96. Standard errors greater than 50% of the estimate indicate a low level of statistical reliability.
